Executive Summary

I seek roles where I can leverage ample, varied writing and editing experiences to prioritize people, learning, and meaningful impact. I bring efficiency, precise attention to detail, and a spirit of calm and compassion. I use software and technology—including AI tools and agents—to produce accurate, excellent, trustworthy publications, communications, and tools. I work effectively in remote and hybrid environments to deliver collaborative, trust-based relationships, professional communities, and thoughtful, well-executed work.

Career Highlights

- Worked with Content Manager team and Technical Writing team to implement focused instructor bio updates, leading to 8% increase in learners taking instructors' courses
- Created process to improve course materials review, resulting in 25% time savings to Technical Writing team without negatively impacting other teams
- Collaborated across teams to build out, troubleshoot, and launch internal CMS and train colleagues in its use, leading to 28% capacity increase over two years
- Scripted, filmed, and edited video with Marketing team for renewing customers, resulting in 18% increase in contract renewals that year
