Professional Experience

LinkedIn—Senior Technical Writer 2 (Remote) | September 2020 – July 2026

I shaped editorial strategy and voice for hundreds of external-facing course descriptions and instructor bios. I documented, mindfully improved, and collaboratively created internal processes, lexicons, and tools, including AI agents. I also volunteered as a coach, mentor, culture champion, and ERG leader.

- Built AI agent to perform initial edit of course text articles, leading to 15% time savings.
- Designed, scheduled, and facilitated an internal AI mentorship program.
- Aligned across engineering and product teams on scheduling and documentation delivery.
- Identified bottlenecks and redesigned handoffs to the course-materials review workflow, resulting in 25% time savings.
- Collaborated across teams to build, troubleshoot, and launch CMS; trained colleagues on its use, contributing to a 28% capacity increase over two years.

Self-Employed—Project Manager October 2019 – September 2020

I managed multiple concurrent client relationships and project timelines, keeping all projects on time and on budget.

- Completed freelance projects, including blog content, technical documentation, business proposal drafting, costume and prop creation, and proofreading manuscripts.

Pearson—Technical Writer (Remote) | June 2008 – October 2019

I worked across multiple products and departments, creating and updating software documentation, help content, and marketing materials. At team leads' direction, I facilitated some team scrums, planning sessions, and sprint retrospectives.

- Researched and rebuilt the documentation review process, improving user satisfaction by 25%.
- Owned XML troubleshooting for online help systems, resolving structural and rendering issues.
- Created and maintained web help, documentation, and instructional videos for Schoolnet.
- Scripted, filmed, and edited a customer-renewal video with the marketing team, leading to an 18% increase in contract renewals.
- Provided graphic design, content, marketing materials, and leadership coordination for a new educational game.

Edstructures (acquired by Pearson, 2008)—Technical Writer June 2007 – June 2008

I created and maintained documentation and visual assets for company software and marketing.

- Received consecutive bronze awards in company new-business proposal competitions.

Power Glide Language Courses—Content Developer 1998 – 2007

I authored and edited content for a full foreign-language course catalog; hired, trained, and managed student interns; and commissioned illustrations and translations for new titles.

- Grew the company's marketing newsletter into the 2nd-largest new-sales channel.
- Led a pilot project for a Japanese ESL course: wrote lessons, hired voice actors, and produced and edited all audio content.
